"Education is one thing no one can take away from you."
-Elin Nordegren

President's Desk

Dr. M. N. Nikam

Education completely changes our mind & personality and helps us to attain the positive attitudes. Therefore, it is of great importance that we let these future citizens be updated to build pathway for themselves New Satara Polytechnic realizes the responsibilities of shaping the future of the country, nurturing and molding the youth in such a way that they emerge as a dynamic personality of our society. These are our future citizens, in whom we aim to instill the values of accountability & morality.

The institute has achieved many feathers in terms of good results, placements and extracurricular activities too. We are continuously in the process of imparting quality education to our budding engineers. This journey is succeeding more gloriously year after year making Indian Engineers to rule the world. Student life at NSP and hope that you will lay the foundation for a bright and rewarding career. With Warm Wishes...

"Life is a journey and it is all about learning"

Principal's Desk

Mr. V. H. Londhe

NSP fills its ambience with safe and student centric atmosphere for young women providing perfect balance in academics, sports, placement, artistic and social opportunities. Inside the campus. the students enjoy their learning and youth hand in hand. We groom students to become confident, articulate and enlightened young citizen ready to step into global society with dignity, honors and integrity

We aim at making our students capable enough to be self-directed and self-managed individuals who can confront the challenges of life without wavering. Our Institute imparts value and skill based education bringing out the best in every student. We focus primarily on preparing our students to be worthy citizens, refined in heart and mind and skilled enough to achieve paramount goals. Our earnest effort is to provide a conducive learning environment to each and every student so that when they go out of the portals, they brim with confidence and emerge as the leaders of tomorrow,

With Best Wishes...

ENTREPRENEURSHIP DEVELOPMENT PROGRAM

Entrepreneurship development is the process of improving the skills and knowledge of entrepreneurs through various training and classroom programs. Entrepreneurship is the act of being an entrepreneur, which is a French word meaning "one who undertakes an endeavor". Entrepreneurs assemble resources including innovations, finance and business acumen in an effort to transform innovations into economic goods. Entrepreneurship plays a very important role in the economic development. Entrepreneurs act as catalytic agents in the process of industrialization and economic growth. Joseph Schumpeter states that the rate of economic progress of a nation depends upon its rate of innovation which in turn depends upon the distribution of entrepreneurial talent in the population. Technological progress alone cannot lead to economic development breakthroughs are put to entrepreneurs. Unless technological Economic use by entrepreneurs.

Inauguration of Entrepreneurship Development

Entrepreneurship Development Program Guidance session.

Entrepreneurship Development Program was arranged for two days for Second and third year students on 4th and 5th
