MECHANICAL ENGINEERING DEPARTMENT

Vision:

“To become a center of excellence in mechanical engineering for producing competent, creative, mechanical professionals to meet socio-technical challenges.”

Mission:

- **To provide a platform to the students towards attaining quality education in Mechanical Engineering.**
- **To educate students about professional, environmental & ethical responsibilities with leadership and entrepreneurship qualities for their career development.**
- **To guide students in acquiring career-oriented jobs and business in the field of Mechanical Engineering.**

HOD DESK

It is my pleasure and honor to welcome you to the departments of Mechanical Engineering. Mechanical engineering is one of the oldest and broadest engineering disciplines, and plays a significant role in enhancing safety, economic vitality, enjoyment and overall quality of life throughout the world. Mechanical engineers have an important role to play in practically every industry; be it automotive, aerospace, chemical, process, electronics or software. Be it sports, medical or any product development; mechanical engineers contribute to it substantially. Our departments has a team of highly qualified and experienced faculty, excellent infra structure and lab facilities. The departments has laboratory and workshop facilities with state-of-the-art equipment to carry out research in all areas related to Mechanical Engineering. Our objective is not to merely produce professionals capable to serve their own needs but endeavor to serve the society with great concern for human values. We are striving hard continuously to improve upon the quality of education and to maintain its position of leadership in engineering and technology. The core values of the departments help the students to develop their overall personality and make them worthy to compete and work at global level. Our faculties are continuously attending various training programs, publishing research papers, books and filing patents. The hands-on-practice at Mechanical Engineering departments is contributing strongly in automobile, thermal, design and manufacturing areas. Regular interaction with industry through collaborative projects, course requirements and general discussions on advancements in technological aspects develop an environment closer to the practical essence of engineering. Regular activities are arranged and encouraged in the departments for indigenous product development, skills enhancement and interdisciplinary interactions.
