ENTREPRENEURSHIP

Entrepreneurship development is the process of improving the skills and knowledge of entrepreneurs through various training and classroom programs. Entrepreneurship is the act of being an entrepreneur, which is a French word meaning "one who undertakes an endeavor". Entrepreneurs assemble resources including innovations, finance and business acumen in an effort to transform innovations into economic goods. Entrepreneurship plays a very important role in the economic development. Entrepreneurs act as catalytic agents in the process of industrialization and economic growth. Joseph Schumpeter states that the rate of economic progress of a nation depends upon its rate of innovation which in turn depends upon the distribution of entrepreneurial talent in the population. Technological progress alone cannot lead to economic development breakthroughs are put to entrepreneurs. Unless technological Economic use by entrepreneurs.
